Fast Track

Compliance Tracking that Counts!

CPE/CLE Participation Tracking and Certification for Adobe® Connect™

If your governing body requires proof of attendance and participation in your CPE/CLE credit courses and webinars you already know how challenging it can be to capture the required data.

With Fast Track you can concentrate on your content and running the event while the tracking and certificate issuance takes care of itself. The system automatically issues challenges to attendees at intervals you determine with optional randomization so your subscribers cannot predict when the next popup will arrive.

We record the time at which each user is challenged and how many seconds it takes them to respond. For users who meet your pass/fail criteria, the system automatically issues beautiful, fully personalized PDF certificates via email.

Automated Challenges

Fully personalized PDF Certificates

Auditable data retained for 4 years

Post-event surveys
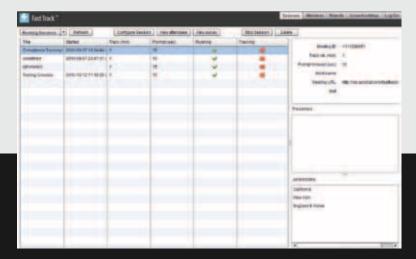

RefinedData.com/Downloads

Fast Track

Compliance Tracking that Counts!

Runs as a simple add-in pod in any Adobe Connect Pro meeting (hosted or licensed)

Pause and Resume Tracking when you break for lunch or overnight, for multi-day events

View live updates and see at a glance who is missing challenges in your events

Support for multiple, branded challenge screens based on your needs

Customizable Auto-Generated Post-Event Surveys or redirect to your own survey engine

Supports unlimited Jurisdictions where users may be licensed in multiple States or Countries

Fully customizable CPE/CLE certificates for every Jurisdiction personalized for each user

Auto-Generation of post-event emails with links to the user's CPE/CLE Personalized Certificates

All personal certificates are retained on our system for Five Years with instant access

Fully Auditable Database with time-stamped records for every Challenge and Response

Search for any user in any event and instantly re-issue lost or misplaced certificates

Search for any Presenter and review their evaluation ratings over one or multiple events

Optional support for tracking in Connect Pro recordings — great for monetizing your content

Optional customization to push CPE/CLE credit data back in to legacy systems

Optional customization to pull registration data from legacy systems to create Adobe users

Optional SSO integration to eliminate the need for users to log in to your Adobe Events

Supports unlimited Presenters and multiple Presenters in every event

Set your own Challenge/Response and Pass/Fail criteria
