

Refined Training

One platform to fulfill all your e-learning and collaboration needs.

Whether you're looking for a full-featured Learning Management System, an Event Management solution, a Live Virtual Classroom, a Meeting platform, or all of the above, the Refined Training system is the answer you've been looking for.

RefinedTraining is built on "best-of-breed" technology. The platform consists of a highly modified version of Moodle® (the world's most popular LMS software) that is fully integrated with Adobe® Connect™ Pro to support live, instructor led learning and collaboration. RefinedTraining is a turnkey solution that delivers results out of the box.

Our fully hosted environment gives you everything you need to deliver courses and content to your audience 24x7, starting today!

Refined Training

One platform to fulfill all your e-learning and collaboration needs.

Meet, Present and Train online, live and on-demand

RefinedData provides a fully hosted eLearning solution based on our own highly modified and enhanced version of Moodle. This platform offers numerous additional features and customizations not available in the Open Source version of the program or from any other vendor. In addition to the Connect-to-Moodle integration, our Refined Training environment offers the following benefits:

Features Include:

- Multi language support
- Authentication with your existing systems (LDAP, CAS, Shibboleth etc.)
- Comprehensive Course management
- Self-Serve Interface provides 24x7 access to your content
- Support for WYSIWYG Editing or Cut & Paste from Word or your Browser
- Full HTML Editing of content for those that need it
- Content personalization – include any of the user’s personal data in any text area throughout the site
- Dynamic Content - content can vary on the fly based on a user’s role or other attributes
- Play Video content while tracking completion at the user level
- Run Live Adobe Connect Pro Meetings while tracking attendance by user
- Track user participation in Adobe Presenter Slide Shows and Quizzes
- Deliver unlimited types of content to students and attendees
- The system supports pre-requisites i.e. you cannot start ‘Course B’ until you complete ‘Course A’
- Fully personalized Course Completion Certificates
- Automated Event Reminders
- One time use Tokens/Passwords for enrollment into one or more Courses
- Location based management and tracking of student progress
- Location based email notification to managers based on student achievement
- Single Sign On integration with Joomla!™
- Support for eCommerce and Shopping Basket applications

Perfect for:

- HR and Training Departments
- Sales and Marketing
- Product Support and New User Training
- Schools & Universities
- Webinars and Special Events

Easy to use, intuitive interface
